

Prototyping Worksheet

Work on a prototype for a problem that you've experienced.

<p>What is the problem you plan to work on?</p>	<p>Has this problem impacted your life? If so, how? If not, who has it impacted and how?</p>
<p>Have there been any attempts to solve this problem? If so, write them below.</p>	

Begin drawing a prototype for the solution to your problem. Label each part of the prototype, then write a description for what the prototype does below.
